TECHNICAL SPECIFICATIONS

Type of System	Coplanar Basic System	Engineering
Module configuration	1P	Drawings/Assembly manual
Profiles	Interface profile 1.26 winged	Design Calculation report
Profile orientation	Parallel to the rails	BOM
Type of anchoring	Self-Tapping/Self-drilling	Checklist
Watertightness	Double watertightness gasket	Supply
Type of roofing	Trapezoidal sheet/Sandwich panel Roof	Fast delivery times
Profile material	EN AW 6005A-T6	Site/Warehouse delivery
Screw material	Stainless Steel 304/316 - 70	After-sales service
Anchor material	Bimetallic Stainless Steel 304/316	Warranty
Structural treatment	Natural/Anodised*	Product design:
Standard profile material	UNE EN 755-2:2016	10 years
Screws material standard	ISO 3560	Manufacturing defect:
		10 years
Design standards	International standards	Corrosion protection:
Certificates	CE	12 years

*Anodised treatment when required by the project
